

Child Medication Prescriber Authorization

Effective 9/13/2021, Alabama Child Care Licensing requires any medication (without a prescription label) to be ordered/authorized by a licensed health care provider. Without this authorization, childcare centers are not allowed to administer the medication. This includes over the counter items such as Diaper Cream, Gas Drops, Chap Stick, Sunscreen, and Insect Repellent. This authorization must include the specific brand to be used.

Child Information

Child's Full Name: _____

Date of Birth: _____

Prescriber Authorization

Note: A separate form is required for each medication.

Medication Type: ____ Diaper Cream ____ Gas Drops ____ Chap Stick ____ Sunscreen ____ Insect Repellent
